These things should have been in the main game.  
But they decided to put them in a paid dlc instead.  
I don't recommend buying these. It's not worth it.  
This game has seven dlc's and all of them are bad.  
I wanted to support the developer, so I bought it.  
But I can't give those dlc's a positive review. Nope.  
Buy them only if you want to support the developer.. Do NOT buy this DLC. I bought it so that I could play with a friend and have a cooler looking pool que than him, turns out it doesn't work on multiplayer (He saw the default models). Turned my pool balls into cool balls.
